Art Unit: 1714

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims 1 and 3 at paragraph C recite "blending, in at least one sequential mixing step" and "subsequently blending therewith in the same or subsequent sequential mixing step". This language makes it unclear as to what applicants intend the process to be. It is not understood how a process comprising "one ... step" can be sequential nor is it understood how "subsequently blending" can be in the "same...mixing step.

Also in claims 1 and 3 at paragraph C (3) the meaning of "internal rubber" is not understood.

Appropriate clarification is required.
